HAVEN
BY CORVID CYBERDEFENSE

END-TO-END CYBERSECURITY

Protect your data, budget, and reputation from cyberattacks with Haven™ from Corvid Cyberdefense.

With ransomware, business email compromise (BEC), and data breaches becoming more common and damaging, organizations must have a comprehensive and 24/7/365 approach to security that touches every piece of IT infrastructure and every possible entrance point to avoid the crippling effects of a cyberattack.

Haven™ is the security-as-a-service that integrates best-in-class cybersecurity protections, employee training, and 24/7/365 Security Operations Center for a fully secure environment.

SINGLE-SOURCE
One source for a complete cybersecurity program

SECURE
Multi-layer protection including always-on, live monitoring

COST-EFFECTIVE
No hiring, training staff, or purchasing expensive hardware

HAVEN™ IS THE ALL-IN-ONE CYBERSECURITY SOLUTION TO PROTECT YOUR ORGANIZATION.

24/7/365 SECURITY OPERATIONS CENTER
Monitoring, detection, and response by live analysts

EMAIL SECURITY
Email protection and encryption to protect from spam, malware, ransomware, and phishing attacks

NETWORK SECURITY
Fully automated, next-generation firewall finds and stops attacks

ENDPOINT SECURITY
Secures workstations and servers; 99%+ malware prevention using artificial intelligence (AI)

AWARENESS TRAINING
Simulated phishing technology and on-screen lessons to train employees

VULNERABILITY SCANNING
Network and system scanning, reporting, and analysis to expedite remediation, when needed

EMAIL SECURITY
NETWORK SECURITY
24-7 365 SOC
ENDPOINT SECURITY
AWARENESS TRAINING
VULNERABILITY SCANNING
