Charlotte's premier event for Cyber Security Executives

SECURING THE PUBLIC BLOCKCHAIN

January 11th 2018, 6:00pm - 8:30pm

Guest Speaker:

Zach Dexter, CTO
Co-Founder of LedgerX

Zach Dexter is an experienced software engineer, project manager and technology architect. Prior to LedgerX, Zach was Lead Software Engineer at Tutorspree, where he built out the full stack for an extensive set of internal tools and external-facing features. Prior to Tutorspree, Zach was a Principal at Databracket, where he built out the full technology stack and managed software engineers for a number of technology start-ups, including IceCharge, a credit card fraud prevention venture.
